

## HALL - A

<b>Day 1 : November 27th 2020 (Friday)</b>		
<b>SERVIER SESSION</b>		
<b>Session 1 - Venous - I (2-3pm)</b>		
Chairpersons : Dr Advait Kothurkar, Dr AR Chandrasekhar, Dr Gurjit Singh, Dr Karthikeyan Sivagnanam		
Panelists: Dr Ajay Dabas, Dr Bhavin L Ram, Dr CP Singh, Dr Ganesh Gowda		
S.No	Topic	Presenter
1	What has really changed in varicose veins treatment as of today	Dr. Ravul Jindal
2	Away from the SFJ: How close is enough?	Dr. Sandeep Agarwal
3	Accessory Venous reflux-To treat or review later	Dr. Harinder Singh Bedi
4	EHIT, EFIT: Should we be bothered?	Dr. Pankaj Patel
5	Which saphenous vein recanalization should be treated and How?	Dr. Dekiwadia
6	Saphenous Incompetence With Post-Thrombotic Deep Veins	Dr. Roy Varghese
7	Recent evidence in medical management of venous disease	Dr. Pranay Pawar
8	Experience in perforator treatment by RFA	Dr R Sekhar

## NOVOMED SESSION

### Session 2 - Venous - II (3-4pm)

Chairpersons : Dr Hemanth K Pandharpurkar, Dr Kapil Mathur, Dr Nachiket Purandare, Dr Ajay Khanna

Panelists: Dr Naveen Chodbar, Dr Nupur Bit, Dr Praveen Narkhede, Dr Pritee Sharma

1	Percutaneous Thrombosapiration: Technical Tips, Results And Limitations	Dr Virender Sheorain
2	Newer Pharmaco-Mechanical Endovascular Clot Removal Systems: When And Why Is Each Device Best To Use	Dr Ambarish Satwik
3	CDT: Current concepts and evidence	Dr. Vijay Thakore
4	Venous stenting concepts and trials	Dr. Seshadri Raju
5	Compression therapies: Basis and Current Concepts	Dr Vella Duraichi
6	IVUS-Is it mandatory in interventions for treating acute DVT	Dr Sriram Narayanan
7	IVC Filter-Complications and Bailouts	Dr Pradeep B
8	Covera Vascular Stent in Management of AV Fistula and Grafts- Patient Selection, current evidence and experience	Prof T Chong

### Session 3 - Carotid (4-5pm)

Chairpersons: Dr Vivekanand, Dr Sanjay Desai, Dr Gireesh Warwadekar, Dr P C Gupta

Panelists : Dr Rahul NS, Dr Rajendra Prasad, Dr Rohit Gupta, Dr Sairam Subramanian

1	Carotid Endarterectomy: Absolute Indications revisited	Dr. Ross Naylor
2	Making CEA safer by the day	Dr V S Bedi
3	Optimal medical management for carotid disease (non-op,pre-op,post-op)	Dr Rajiv Parakh
4	CAS: Whats new?	Dr Ajay Yadav

5	Vertebral artery revascularisation: Current Concepts	Dr Paul Renwick
6	Carotid artery aneurysms-The Indian Experience	Dr Shivanesan P
7	Dissection and thrombosis of the carotid artery- What to do when	Dr. Dhanesh Kamerkar
8	Surgical Management of free floating thrombus in carotid artery : A single centre experience	Basvarajendra S Anurshetru

## SANOFI SESSION

### Session 4 - Covid-19 (Arterial, Venous, Anticoagulation) (5-6pm)

Chairpersons: Dr V.S.Bedi, Dr Kumud Rai, Dr Anita Dhar, Dr Dhanesh Kamerkar

Panelists: Dr. Krishna (MMC), Dr Narendranath Meda, Dr Nikhil Sharma, Dr Luv Luthra

1	COVID and the Clots	Dr. K R Suresh
2	Vascular COVID Diaries	Dr Arunagiri Viruthagiri
3	Arterial thrombosis in COVID and surgical management	Dr. Srujal Shah
4	Endovascular management for arterial thrombosis in COVID-19 disease	Dr Apurva Srivastava
5	Treatment guidelines for venous thrombosis in COVID	Dr. Rajarajan
6	Thrombolysis in COVID-19 disease	Dr R Sekhar
7	Screening of vascular surgery patients for Covid: How it has evolved. What should be done?	Dr Devender Singh
8	COVID-19 times - The practical lessons learned, how to promote mental wellness in these difficult times.	Dr Sandeep Mahapatra

**Inauguration of Virtual VSICON 2020 +Social Events (6-6.30pm)**

### HALL - A

Day 2 : November 28th 2020 (Saturday)

#### Prize Paper Session (10-11.30am)

Chairpersons: Dr.K.R.Suresh, Dr. N.Sekhar, Dr.R.Sekhar, Dr Pinjala Ramakrishna

#### Judges

S.No	Topic	Presenter
1	Role of Artificial intelligence and Machine learning in understanding and quantifying the morphological changes in Chronic venous insufficiency (CVI).	Viswanath Atreyapurapu
2	Outcomes With Aspirin And Clopidogrel Vs Aspirin And Rivaroxaban In Infrainguinal Endovascular Revascularisation For Critical Limb Ischemia (Cli)	Nishan.B
3	To Assess The Role Of Cardiac Biomarkers (NT PRO BNP & Troponin I) In Risk Stratification Of Patients Undergoing Major Vascular Surgeries	Rakesh Kumar Jha
4	Assessment Of Quality Of Life Between Patients Undergoing Pharmacomechanical Catheter Directed Thrombolysis Vs Conservative Management With Isolated Iliofemoro-Popliteal Deep Vein Thrombosis	S V R Krishna Yeramsetti
5	Peripheral Vascular System Thrombosis And Covid 19- A Chilling Revelation An Observational Study	Syed Mohammed Ali Ahmed
6	Contrast-induced nephropathy following peripheral endovascular intervention and its long term morbidity	Vishal Hudgi
7	Alpha Blocker -A Better Antihypertensive Option For Post Endarterectomy Hypertension	Vineeth Kumar
8	Factors affecting the long-term patency of arteriovenous access for hemodialysis: A Single center experience	Ranjith Kumar A
9	The role of Triglycerides and Triglycerides/High Density Lipoproteins ratio as a positive predictive factor in Chronic limb ischemia	Nivedita Mitta
10	A prospective observational study to evaluate utility of usg (ultrasound) guided arteriovenous fistuloplasty in our institute	Shrikant Ghanwat

## BAYER SESSION

### Session 5 - Miscellaneous (11.30am -1pm)

Chairpersons: Dr Ashwin Bhammar, Dr Bakthavatchalam, Dr M Rajkumar, Dr Rajarajan V

Panelists: Dr Ritesh Gaikwad, Dr Shahzad Bulsara, Dr Shubhabrata Banerjee, Dr Sunil Joshi

1	Current Concepts in the management of Carotid Body Tumors	Dr Siddharth Vishwanathan
2	Stem Cells for treatment of no option CLI	Dr. Rajiv Parakh
3	Options beyond conservative management in lymphedema	Dr. Rajesh Hyderabad
4	NOACs and reversal agents	Dr Ashish Laddha
5	Vascular Surgery in India- The saga of so many years	Dr. N Sekar
6	Cancer associated thrombosis-Current research and recommendations	Dr Aadarsh Kabra
7	Vascular Complications of TOS	Dr Arvind Kohli
8	TOS revisited	Dr Willy Pillay
9	In the Hands of a Vascular Surgeon: Re-implantation of the arm	Dr Sunder N
10	Epidemiology Of Vascular Disease In Covid Patients – Experience In Madras Medical College	Dr Jayesh Suresh
11	A Study Of Changing Referral Patterns Of Non Covid Vascular Emergencies In Covid Scenario - A Perspective From Vascular Surgery Resident	Dr Saleem Jahangir

### LUNCH Break 1-2pm

### Session 6 - Aorta (2-3pm)

Chairpersons: Dr VS Bedi, Dr Vembu Anand, Dr V Balaji, Dr Kumud Rai

Panelists: Dr Ajay Savlania, Dr Krishna Chaitanya, Dr Siddarth Vishwanathan, Dr Prabhu M

1	Mid Aortic syndrome	Dr. R.C.Sreekumar
2	Management of PAU	Dr. Venkat Kalapatapu
3	Endovascular management in Aorto-Arteritis	Dr. Dheepak Selvaraj

4	Changing Current Trends In Management And Outcomes With Acute TBADs	Dr. T. Vasudevan
5	New Strategies And Indications For Open AAA Repair Including Failed EVAR, F/B/EVAR	Col Vikram Patra
6	Embolization Strategies To Achieve False Lumen Thrombosis	Dr Tarun Grover
7	Advantages And Limitations Of A Distal Bare Stent Combined With A Proximal Covered Stent in treating TBAD	Dr Gireesh Warwadekar
8	Blunt Thoracic Aortic Injury: Current Therapies, Outcomes, and Challenges	Dr Edwin Stephen

### **DR REDDY'S SESSION**

#### **Session 7 - PAD (Medical) (3-4pm)**

Chairpersons: Dr N Sritharan, Dr Radha krishna, Dr Rajesh S, Dr S A Hussain

Panelists: Dr Sairam Subramanian, Dr Sasikumar, Dr Hiten Patel, Dr Ankur Patel

1	Key New Developments In Medical Management of Chronic Limb Ischemia	Dr Vishnu M
2	Are statins really helpful in PAD?	Dr Pranati Swain
3	Aspiration Thrombectomy Devices And Techniques For ALI-The Game Changer	Dr Sumit Kapadia
4	Lytic options in treating acute limb ischemia	Dr. Manish Rawal
5	No Option CLTI: What Is It and What Are The Actual Treatment Options	Dr. Pinjala R
6	Role And Value Of Vein Arterialization	Dr Albert Kota
7	Treatment Recommendations, Revascularization Strategies and Needs For The Future as per the The New Global Vascular Guidelines For CLTI	Dr. K R Suresh
8	ESVS guidelines on ALI	Dr Martin Bjorck

#### **Session 8 - Aneurysm-I (4-5pm)**

Chairpersons: Dr Shashi, Dr Sudhir Rai, Dr Muralikrishna, Dr Tarun Grover

Panelists: Dr Pradeep B, Dr Kapil Gupta, Dr Prabhakar, Dr Digvijay

1	How Best To Treat TBADs Extending Into The Arch Or Ascending Aorta (Open/Endo/Hybrid)	Dr. Shivananda
2	The STABILISE Technique For Acute And Subacute TBADs: Indications, Technical Tips, Precautions And Results	Dr V S Bedi

3	Dual Lumen Interventions To Promote False Lumen Thrombosis In Chronic Aortic Dissections	Dr. George Joseph
4	Distal Stent-Graft Induced New Entry Tears in treatment of Chronic TBADs: Prevention and Treatment	Dr Vimal Someshwar
5	New Strategies And Indications For Open TAAA Repair	Dr. Unnikrishanan
6	Need For Open Repair For Post-Dissection TAAAs	Dr Takuya Fujikawa
7	TAAA-My Choice-Debranching	Dr Shivanesan P
8	TAAA-My Choice- F/TEVAR or Chimney	Dr Raghuram L

### Session 9 - Aneurysm - II (5-6pm)

Chairpersons: Dr Sreekumar, Dr Neelkathan, Dr V Balaji, Dr Arulmani

Panelists: Dr Narendranath Meda, Dr Shivanesan P, Dr Siddharth Vishwanathan, Dr Srujal Shah

1	Have the long term outcomes of EVAR improved as compared to open repair which remains stable till date?	Dr. Robbie George
2	Solutions To Treat Type 1A Endoleaks After TEVAR And EVAR	Dr.Aniket Pradhan
3	Adverse neck anatomy. Open or EVAR?	Dr. Kumud Rai
4	Experience with management of Mycotic Aortic Aneurysms	Dr. Ajay Savlania
5	PEVAR – Improvising with time	Dr Ajay Yadav
6	Bailouts in EVAR	Dr. V Anand
7	Newer Devices available in India and specific benefits	Dr Virender Sheorain
8	EVARS: Lessons learnt in Doncaster over the last 10 years.	Dr Nandan Haldipur

Virtual GBM (President's, Secretary's address, IJVES report (6-7pm))

## HALL - A

Day 3 : November 29th 2020 (Sunday)

### ABBOTT SESSION

#### Session 10 - Arterial-I (9-10am)

Chairpersons : Dr Arunagiri, Dr Sharmila, Dr Ravi, Dr Vidyasagan T

Panelists : Dr Yashpal, Dr Vineet Arya, Dr Prathap, Dr Amit Mahajan

S.No	Topic	Presenter
1	Pushing the envelope in endovascular management of aorto-iliac occlusion. What does the long term latest data say?	Dr. Vivekanand
2	Vasculomimetic stents: Ideal deployment and tips for increasing patency	Dr. Tarun Grover
3	Best strategy for treating BTK segment	Dr Venkatesh Reddy
4	Trials of bioresorbable and other stents in BTK disease	Dr Rohit Gupta
5	Current status of DCBs in treating CLTI : Safety issues and Updates	Dr Pritee Sharma
6	Options and results: When a single autologous vein is not sufficient for a distal bypass	Dr Thomas Holzenbein
7	TORUS-2 study: Technique and Results	Dr Vishnu M
8	My Choice of Guidewires-adapting to the lesions	Dr. Prabhu Premkumar

### Session 11 - Arterial- II (10-11am)

Chairpersons: Dr S R Subramaniyan, Dr Jeyachandran, Dr SumanthRaj, Dr Amalorpavanathan

Panelists: Dr Ankur Patel, Dr Pranay Pawar, Dr Dhruv Agarwal, Dr Lawish Agarwal

1	CDT and other endovascular techniques For ALI vs Fogarty Balloon Catheters: Updates and Indcations	Dr Advait Kothurkar
2	Occluded bypass graft: Redo surgery/Endovascular	Dr. Kapil Gupta
3	Value Of Atherectomy And DCBs	Dr Venkatesh Ramaiah
4	Heparin Coated (Propaten) PTFE Grafts Versus Autologous Vein Grafts For Bypasses To Targets Above And Below The Knee	Dr. Paresh Pai
5	Infected Bypass grafts of lower limbs- Options and Experience.	Dr Sritharan
6	Recent RCTs for CLTI: Where are we heading?	Dr. Nupur Bit
7	Long term results from the Absorb BTK trial	Dr Ramon Varcoe
8	RAVS Study : a single center experience with Turbohawk directional atherectomy device , to analyze it as an emerging modality for treatment of long segment femoro-popliteal occlusive disease	Dr Adharsh kumar Maruthu pandian

### Session 12 - Controversies (11am-12pm)

Chairpersons : Dr S Sarvanan, Dr Shanmugavelayutham, Dr Ranjish AT, Dr Dhanesh Kamerkar

Panelists : Dr Simit Vohra, Dr Nikhil Sharma, Dr Viren Yadav, Dr Aniruddha Bhuyan

1	All Visceral And Renal Artery Aneurysms Can Be Treated Endovascularly	Dr Raghunandan ML
2	Open Treatment Of Visceral And Renal Artery Aneurysms Is Sometimes Best: When Is This	Dr Bakthavachalam
3	Claudicants are best managed conservatively	Dr Diwakar Bendi
4	Why not revascularize a claudicant?	Dr Ajay Yadav
5	TASC D Aorto-iliac disease-Endovascular revascularisation is better	Dr Prakash Madhavan
6	TASC D Aorto-iliac disease- Go with the gold standard	Dr Ashok Kumar (Stanley)

7	Chronic DVT-I will recanalize	Dr Rakesh Kapur
8	Chronic DVT-Conservative treatment till I can	Dr Ilayakumar
<b>Session 13 - Ethics, Research and Newer Technologies in Vascular Surgery (12-1pm)</b>		
<b>Chairpersons: Dr Prakash Ramamoorthy, Dr Kiran Manikaneni, Dr Diwakar Bendi, Dr Bakthavachalam</b>		
<b>Panelists: Dr Pritee, Dr Kushan Nanavati, Dr Achintya Sharma, Dr Manvendu Jha</b>		
1	Ethical Practice in Vascular Surgery can only bring the right results	Dr P C Gupta
2	Ethical practice and legal implications	Dr Parveen Jindal
3	RCTs And Meta-Analyses Can Be Flawed And Biased: Common Sense is the key	Dr Tapish Sahu
4	Telemedicine For Vascular Surgeons: What Is The Best Technology and what are the legal implications?	Dr Nihar Pradhan
5	The Role of Robotic Technology In Vascular Surgery	Dr Rajesh Babu
6	Clinical Value of AI for a vascular surgeon	Dr Gnaneswar Atturu
7	Use of AI in AAA Monitoring	Stephan Haulon
8	#MedBikini : Journals should focus only on profession and research, not on personal life and social media content	Dr Srujal Shah

**LUNCH Break 1-2pm**

**BD SESSION**

**Session 14 - AV Access (2-3pm)**

**Chairpersons: Dr Nagabhushan, Dr Rajesh Srinivas, Dr Venkatesh Reddy, Dr Marthu Durai**

**Panelists: Dr Jayanth, Dr Shahzad Bulsara, Dr Shardul Date, Dr Anoop T**

1	Endovascular salvage for thrombosed autogenous AV access	Dr. Jackie Pei Ho
2	Role of covered stents in Central Venous obstruction	Dr Robbie George
3	Vasculomimetic stents in AV Fistula Salvage	Dr Shannon Thomas

4	Non-surgical (perc) AVF creation - Creating Mature AV Access	Dr Dheeraj Rajan
5	Role of DCBs in maintaining AV access	Dr Shuvro Roy Choudhary
6	Atypical AVFs (Apart from RC/BC/BVT)	Dr Himanshu Verma
7	Configuration of Permcath Tip-Newer advances	Dr Pradeep B
8	Forced maturation of the immature AVF	Dr Shannon Thomas

### Session 15 - Diabetic Foot (3-4pm)

**Chairpersons: Dr Jeyakumar, Dr Radhakrishnan, Dr Vimal Iype, Dr Surinder Singh**

**Panelists: Dr Rishi Dhillon, Dr Pranay Pawar, Dr Ganesh Gowda, Dr Manju Bharath**

1	Topical Oxygen Therapy... Wait... What?	Dr Vivekanand
2	Local agents in healing diabetic foot wounds.	Dr Rajendra Prasad
3	Special dressings-Optimally used or underutilised?	Dr Chandrashekhar B
4	Bio-Physics of forefoot amputation	Dr Vishnu M
5	Current trends in management of diabetic foot wounds	Dr Sumanth Raj
6	Skin Substitutes for wound coverage	Dr Gnaneshwar Atturu
7	Advances in Wound Management – Handling Anti-Microbial Resistance in Chronic wounds	Dr Rajesh Kesavan
8	Outcomes of diabetic foot ulcer patients with or without co-existing peripheral arterial occlusive disease	Dr Amarendrababu Salapu

### Session 16 - Vascular Malformations (4-5pm)

**Chairpersons: Dr P Govindaraj, Dr Sumit Kapadia, Dr Rakesh Mahajan, Dr Amish Mhatre**

**Panelists: Dr Kapil Baliga, Dr Luv Luthra, Dr Binni John, Dr Ankur Aggarwal**

1	Combined Endovascular And Surgical Management Of Vascular Malformations	Dr. Vijay Thakore
2	Varicose Veins Among Klippel Trenaunay Syndrome: What we should know about	Dr. Albert Kota

3	Complications and its management in treating AVMs	Dr Ambarish Satwik
4	Treating slow flow venous malformations-What to use when??	Dr Manish Rawal
5	Genetic Diagnosis And Molecular Therapies Of Vascular Anomalies	Dr Dheepak Selvaraj
6	Our Institutional Experience In Visceral Artery Aneurysm	Dr Srinivasan
7	Outcomes of Glue/coil embolisation in High flow Arterio-venous malformation	Dr Sahaja A
8	A Study Of GLUT1 and nerve bundle for differentiation of hemangioma and vascular malformation	Dr Akhilesh Kumar
<b>Session 17 - Atmnirbhar Bharat (5-6pm)</b>		
<b>Chairpersons: Dr Nihar Pradhan, Dr Sarvanan R, Dr A Rathinavel, Dr Arvind Kohli</b>		
<b>Panelists: Dr Vivek Vardhan, Dr Thulasikumar, Dr Devarajan, Dr Anil Luther</b>		
1	How to setup a vascular practice – Lessons learned from my experience	Dr Rajiv Parakh
2	Indian stents and balloons-are they even in the league?	Dr Sanjay Desai
3	Awareness in India: What more needs to be done!!	Dr Sunil Rajendran
4	Screening for AAA in India- Need and methods. How to do?	Dr M Unnikrishnan
5	Carotid Artery Disease - Screening in India	Dr P C Gupta
6	Factors predicting the outcomes of musculoskeletal trauma associated with vascular injuries presenting to a tertiary care trauma center in South India.	Dr Hanish Kataria
7	Impact of COVID-19 lockdown on arteriovenous access procedures	Dr Temesgen Andualem Desta
8	Thrombotic markers in patients with clinically suspected DVT with special reference to Prothrombin fragment 1+2 in urine and plasma sample	Dr Pramesh Chandra
<b>Thanks Giving and Valedictory (6pm onwards)</b>		

## **FREE PAPER SESSIONS**

<b>Session 1 (27/11/2020) 2-3pm</b>		
<b>Chairpersons: Dr Nihar Pradhan, Dr Sandeep Mahapatra, Dr Achintya Sharma, Dr Amit Mahajan</b>		
1	Dr. Prabhu kumarappan	The diagnostic accuracy of contrast enhanced ultrasound imaging to detect endoleaks after endovascular abdominal aneurysm repair
2	Dr. Ajay B Mosur	An observational study on infrarenal abdominal aortic diameter in patients with arterial occlusive disease.
3	Dr. Ashutosh Kumar Pandey	Surgical approaches to adult mid aortic syndrome- a tertiary center experience
4	Dr. Biravinth Solomon	Institutional experience in the treatment of chronic thromboembolic pulmonary hypertension
5	Dr. Gunjan Mishra	SMA thrombosis in a case of aortic dissection
6	Dr. P. R. Murugesan	Carotid artery mycotic pseudoaneurysm emergency repair- a case report.
7	Dr. Arunagiri Viruthagiri	Vascular diseases encountered in a Pediatric population
8	Dr. Prabhu Kumarappan	Outcomes of Thoracic Endovascular Aortic Aneurysm (TEVAR) in Type B Aortic dissection and Thoracic Aortic Aneurysm
<b>Session 2 (27/11/2020) 3-4pm</b>		
<b>Chairpersons: Dr Diwakar Bendi, Dr Manish Rawal, Dr Shahzad Bulsara, Dr Lawish Agarwal</b>		
9	Dr. Prashant Raman	Isolated iliac artery aneurysms- 10 years institutional experience
10	Dr Saleem Jahangir	Use of arterial graft for reconstruction as a vascular conduit in difficult scenarios
11	Dr. Hanish Kataria	Coverage of exposed and infected graft by flaps
12	Dr. Basheer Ahmed Showkath Ali	A rare case of delayed radiation induced vasculopathy - a case report.
13	Dr.K.Siva Krishna	Clinical outcomes of Open first versus Endovascular first strategy in patients with chronic limb threatening ischemia due to infrainguinal arterial disease- an Indian perspective.
14	Dr Ajay B Mosur	Thoracic outlet syndrome: 8 years single center experience
15	Dr Rajeev Thilak C	Approach to different types of IVC leiomyosarcoma-vascular surgeon's perspective
16	Dr Rutvij Shah	Outcomes of endovascular revascularization procedure for multi-level arterial lesions in adults with chronic limb ischemia (CLI).

### Session 3 (27/11/2020) 4-5pm

**Chairpersons: Dr Nitish Anchal, Dr Yashpal Singh, Dr Kushan Nanavati, Dr Simit Vora**

17	Dr Manas Ranjan Pati	Comprehensive analysis of carotid-subclavian artery bypass in JIPMER
18	Dr. Adharsh Kumar Maruthu Pandian	"He or She" A single centre experience of risk factor profiles, clinical presentations, interventions and outcomes of peripheral arterial disease in Women over 15 years
19	Dr Naveen	Open surgical bypass versus angioplasty of superficial femoral artery lesion
20	Dr Venkataprasanna.K.S	Anatomical and functional outcomes in patients presenting with acute limb ischemia and its association with time to revascularization.
21	Dr Rutvij Shah	Outcomes of hybrid revascularization procedure for Tasc II (trans-atlantic intersociety consensus ii) type c and d lesions in adults with symptomatic peripheral arterial diseases.
22	Dr.Sahaja A	Outcomes of endovascular therapy in long segment aorto-iliac occlusion
23	Dr Soumya A Vastrad	Safety and efficacy of selective nerve blocks for lower limb arterial revascularisation
24	Dr Srikanth. K	Infrainguinal synthetic graft bypass demographics and postoperative surveillance- an institutional experience

### Session 4 (28/11/2020) 2-3pm

**Chairpersons: Dr Nikhil Sharma, Dr Praveen Narkhede, Dr Karthikeyan Sivagnanam, Dr C P Singh**

***Prof Neil Piller***

***Management of Lymphedema***

25	Dr.K.Siva krishna	Comparative study of outcomes between open surgery first versus endovascular first revascularisation
26	Dr Rahul Lakshminarayanan	Lower extremity arterial injuries -post-operative recovery and limb salvage – our institutional experience
27	Dr Nedounsejiane M	Posterior Approach to traumatic Popliteal artery injuries
28	Dr Deepak Sulya	Retrospective analysis of outcome of vascular injury associated with orthopedic trauma in a tertiary center
29	Dr.Harita K	Aberrant Right Subclavian artery presenting with upper limb ischaemia and an unforeseen event
30	Dr Bhushan Dilip Shinde	Observational prospective study of management of venous ulcers due to superficial venous reflux with early intervention and compression stockings v/s compression stockings alone.

<b>Session 5 (28/11/2020) 3-4pm</b>		
<b>Chairpersons: Dr Shubhabrata Banerjee, Dr Gaurav Singhal, Dr Mohit Arora, Dr Ramya</b>		
31	Dr Viswanath Atreyapurapu	Prevalence of deep vein disease in patients with non-thrombotic advanced chronic venous disease
32	Dr Nikhil Sharma	Initial experience with the venaseal system for the treatment of varicose veins
33	Dr Abhilash V	Evaluation of Intravascular Ultrasound for assessing the outcomes of endovascular interventions in deep venous occlusive disease
34	Dr Chithra Rajagopalan	Endovascular intervention in the salvage of vascular access - our institutional experience
35	Dr Joel Mathew John	A Single Institutional experience with Femoral Vein transposition arteriovenous fistulas for hemodialysis access
36	Dr K Athirath Reddy	Endovascular intervention for central venous obstruction in patients on hemodialysis
37	Dr Ranjithbabu	Endovascular intervention in hemodialysis complicated central venous obstruction – a tertiary care experience
38	Dr Venkatesh Bollineny	Is the vascular access ladder appropriate ?

<b>Session 6 (28/11/2020) 4-5pm</b>		
<b>Chairpersons: Dr Ashutosh Aher, Dr Ashish Airen, Dr Govind Dubey, Dr Gurunandan</b>		
39	Dr.Prajakta Vedak	Resistive index: A comparative parameter for patency of arteriovenous fistula
40	Dr Deepak Velmurugan	Venous thromboembolism: Our experience from a tertiary care centre in South-India
41	Dr Abhilash V	Endovascular management of nonmalignant ilio caval venous lesions
42	Dr. M Srujana Reddy	Graft-enteric fistula - Rare cause of G.I bleed and a diagnostic perplexity
43	Dr Pranay Kumar Mehta	A case of Carotid Body Tumor - Shamblin III
44	Dr Tarun Shetty	Surgical repair of giant venous aneurysmal dilatation of left brachiocephalic fistula for haemodialysis access: a case report
45	Dr Sonal Bharat Chavan	Internal iliac artery ligation a must know skill set by surgeons and obstetricians.

## E-Poster Presentation

### Hall-B

27/11/2020 (Friday) 5-6 pm

1	Dr Kamran Khan	DVT with Absent IVC- a case series of treatment methods and outcomes
2	Dr. Elango Swamiappan	Percutaneous iliac stenting for critical limb ischemia - case series
3	Dr A Arun Kumar	A Rare Case Of Nutcrackers Syndrome With Gonadal Vein Aneurysm
4	Dr Hemanth Kumar	Carotid body tumour : a camouflage
5	Dr. Sriram manchikanti	In-situ tailored bovine pericardial graft- an alternative to autologous conduit in aorto-enteric fistula
6	Dr. Srikanth.K	Extensive arterio venous malformation of face – a case report
7	Dr. A. Srinivasan	Paediatric splanchnic artery aneurysm
8	Dr. Neelamjingbha Sun	Type 2 Hybrid arch repairs in Marfans syndrome
9	Dr. Elango swamiappan	Percutaneous unilateral iliac stenting for critical limb ischemia - case series
28/11/2020 (Saturday) 5-6 pm		
10	Dr. K Athirath Reddy	A rare case of crutch induced axillo-axillary aneurysmal arteriovenous fistula
11	Dr. Nivedita Mitta	Acute spinal cord ischemia: post bilateral iliac angioplasty and stenting – an unexpected diagnosis
12	Dr. Shalini Aryala	Repair of giant iliac vein aneurysm due to a chronic traumatic a-v fistula of thigh - a novel two stage procedure.
13	Dr Tarun Shetty	Surgical repair of infrarenal abdominal aortic mycotic aneurysm using superficial femoral vein graft
14	DR. Rajeev Thilak C	Aortic Injury- A miraculous escape
15	Dr. M Srujana Reddy	A case of vascular trauma due to a crocodile
16	Dr Vijay Richard	EVAR for infrarenal aneurysm in a government set up
17	Dr Pavan B K	EVAR with chimney for juxta renal aortic aneurysm:a case report
18	Dr. Elango Swamiappan	Vascular complications of covid-19

**VSI YOUNG RESEARCHERS AWARD (Arterial)**

**29/11/2020 (Sunday) 10:00am - 11:30am**

<b>S. No.</b>	<b>Name</b>	<b>Topic</b>
1	Dr Nishan.B	Impact of pedal arch patency on tissue/ limb loss in patients with critical limb ischemia undergoing infra-inguinal endovascular revascularisation
2	Dr Sriram Manchikanti	Prevalence of abdominal aortic aneurysms in patients with coronary artery disease undergoing CABG: A single centre population-based study
3	Dr Prajna B. Kota	Survey of post-operative outcomes in COVID-19 patients undergoing elective arterial procedures and factors predicting these outcomes : A prospective cohort study
4	Dr Ashutosh Kumar Pandey	Incidence of Deep venous thrombosis after open repair of Aortic aneurysm: A single centre prospective study
5	Dr Rahul Lakshminarayanan	Gene Polymorphism approach to Non-specific Vasculitis in Critical Limb ischemia
6	Dr Pritee Sharma	Role of low dose Rivaroxaban and Aspirin in Peripheral artery disease – A Randomised Control Trial
7	Dr Pranay Pawar	Quantification of steal in brachiocephalic fistulas in an Indian Population
8	Dr Sudharsan Reddy Yalamuru	Role of Neutrophil- Lymphocyte Ratio & Mean Platelet volume – As combined Predictors of outcome of interventions for Atherosclerotic diseases of vascular system
9	Dr. Nivedita Mitta	Offloading in improving foot alignment and correcting gait abnormality: An aide in wound healing and ulcer prevention
10	Dr Ranjith Kumar A	Burgers Disease(TAO): Association of Carboxyhemoglobin level, Cotinine levels and severity of disease in chronic smokers
11	Dr Vijay Richard	Role of remote endarterectomy in atherosclerotic superficial femoral lesions and comparing them with reverse saphenous vein bypass – a randomised controlled trial
12	Dr Viswanath Atreyapurapu	Application of artificial cutaneous tactile feedback (haptics) technology in vascular surgery training

***SERVIER YOUNG RESEARCHERS AWARD (Venous and Lymphatics)***

**29/11/2020 (Sunday) 11:30 am - 01:00 pm**

<b>S. No.</b>	<b><i>Name</i></b>	<b><i>Topic</i></b>
1	Dr Bhushan Dilip Shinde	Study of management of venous ulcers due to superficial venous reflux with early intervention and compression stockings v/s compression stockings alone.
2	Dr Sweety Kumari	Correlation of various platelet indices and its association with deep vein thrombosis
3	Dr. Naveen R	Cephalic vein distensibility as a predictor of arteriovenous fistula maturation
4	Dr Prashant Raman	Fibrin monomer complex - novel biomarkers for prediction of pregnant females at high risk Venous Thromboembolism.
5	Dr.Harita K	Prospective analysis of Apixaban Vs Enoxaparin as a chemoprophylaxis for venous thromboembolism in complex lower limb fractures: A Single centre study
6	Dr. Nishan.B	Prevalence of thrombophilia markers in patients with spontaneous peripheral venous thrombotic events
7	Dr. Pritee Sharma	Rivaroxaban for treatment of cancer associated venous thromboembolism
8	Dr. Samuel Prabhu Mithra	Assessment of peripheral neuropathy and gait analysis in patients with chronic venous ulcers
9	Dr Sudharsan Reddy Yalamuru	Outcomes of Ultrasound guided Angioplasty for Peripheral stenosis of Arteriovenous Access
10	Dr Luv Luthra	Clinical Outcomes of Endovenous Ablation with 1940nm Laser for Incompetent Saphenous Veins: Single Centre Retrospective Study
